SAUCONY X COLOUR PLUS COMPANIE – GRID SHADOW 2 For his second collaboration with Saucony, Creative Director Jordan Page decided to tap into his love of the outdoors blending the mission to create comfortable and innovative apparel that plays on the colour spectrum, with Saucony's technical know-how, and sporting styles. Influenced by the vintage Saucony boot, The Trekker, Page took the earth brown & forest green coloring & durable materialization of the 90's hiker to aesthetically re-conceptualize the Grid Shadow 2, a performance running shoe, into a trail running sneaker. Expanding on the nature trail theme, Beach & Arctic inspired colourings were created to round out a trio of sneakers that run the hue-inspired gamut of freezing to sweltering natural environments: Beach Ramble, Forest Wander, Arctic Trek. Each shoe features Colour Plus x Saucony branding as well as a custom box showing the beach, forest, and snowy terrain

UNPLUGGED PACK

Some shoes are absolutely necessary for your rotation. This set is no exception.

Introducing the Unplugged

Pack—a color-blocked collection built with open mesh, hairy suede, and all the fixings you need to hit refresh.

Did we mention the terry lining? That's the cherry on top.

The modern classic returns with a premium update of its sporty past. Originally released in 1989 as a performance runner, the shoe represents a period of genuine innovation in running technology where athletics met aesthetics.

Now, 30 years later, the Shadow 5000 has transcended its sporting roots and evolved into a modern classic.
